C. OF C. DIRECTORS TO HEAR OF NEW PACKETS

Rumors of catabledument of another boat line to be operated between Memphys, Cairo, St. Laura and other points were heard again. Tuesday as a result of the conference of the traffic transportation committee and the freight bureau of the Chamber of Commerce. Whether a new line will become a reality waits on the decision of this body and the directors of the Chamber of Commerce, who will meet Friday. Reports to the effect that the outside capital has altready begin plans generally is discredited.

Freight rates prove one of the greatest leavers in the tentative plans and ideas advanced but many points are yet to be considered before anything is done.

N. Y. AUTHORITIES START

NEW YORK, June 22 - Dissatisfaction with the government's census figures which showed New York had gained only 854,258 new residents in the last ten years, caused city authorities to start 700 enumerators on a test resount today in 117 representative Manhattan districts.

Before the government's figures were announced, it had been predicted New York would show a gain of more than 1,000,000, putting the total population over the 6,000,000 mark. Instead, the total was 5,621,151, and the borough of Manhattan with 2,284,103, showed an actual decrease of 47,459.

SALAD SPECIALISTS

According to a Spanish proverb, it takes four persons to make a good salad:

A spendthrift for oil, a miser for vinegar, a counsellor for salt, and a madman to stir all up.

The salad specialists at CHILDS have caught the spirit of this old proverb.

The result is a salad that imparts zest to the dinner and tranquilizes digestion.

To Those Who Eat:

Direct from producer and manufacturer to the consumer, to him and her who eats, is the PIGGLY WIGGLY way. More than one thousand items and variety of food products are on display in a PIGGLY WIGGLY store, and there is present in the price of each article only that cost necessary as first payment to the producer or manufacturer and as is necessary to take care of one cost in distribution to the consumer. The usual wholesale jobber's profit is eliminated entirely and PIGGLY WIGGLY, through its manifold savings in cost of distribution, is able to do business on a margin of profit which in total is approximately the general average of profit usually taxed on food products as the portion belonging to the great middleman-the Wholesale Grocer.

Decade after decade and age after age there have been attempts theoretically to make the path short from producer and manufacturer to consumer and to make the cost small, yet not until PIGGLY WIGGLY came was there ever a practical way to do this.

In a PIGGLY WIGGLY store there is that cleanliness that is seen in the well regulated home pantry of the housewife, and in truth PIGGLY WIGGLY is a very large pantry for use by the housewife, and one that can be depended upon every day. Every market of the entire country the buying arrangements for PIGGLY WIGGLY stretch out and touch, and from these markets come the best that can be had, and all of this is for the choice of the housewife as may suit her purse and as may suit her own judgment of comparative values.

You wait on yourself in a PIGGLY WIGGLY store, and while you are doing this, more than one hundred others can be doing likewise and still each one can make a choice and appraise a value without interruption or suggestion from anyone else.

There are no sales clerks to haggle with and none to give preference to one customer over another.

There is no one to tell you that you ought to buy this or you ought to buy that, or you ought not to buy that or you ought not to buy this. All the telling of that kind that is done is told in your own mind and according to what may be your own personal desire, and if you cannot suit yourself, then certainly no one else in the world will be able to do that thing.

Fresh Fruits and Vegetables are there for your own selection.
